ABSTRACTED-PUB-NO: EP 751759B
BASIC-ABSTRACT:

Compsn. contains (in wt.%) 0.1-3% Minoxidil (6-(1-piperidinyl)-2,4-pyrimid- ine diamine-3-oxide) (I), 0.1-3 cyclodextrin, 0.5-10 solvent for (I), 30-50 alcohol and water to 100.

The cyclodextrin is pref. alpha, beta, partially methylated beta, or hydroxypropyl beta cyclodextrin, alone or in admixture. The solvent for (I) is a glycol, N-methyl pyrrolidone, or diethylene glycol monoethyl ether, esp. propylene glycol. The alcohol is a mono-alcohol, esp. ethanol or isopropanol.

USE - The compositions stimulate the growth of keratinocytes and so aid hair regrowth.

ADVANTAGE - The compositions are more pleasant to use than known compositions containing (I) because they are not greasy nor do they lead to a greasy appearance.
